

CERAMIC STUDY GROUP Inc.

Cameron Williams

Cameron Williams has a passion and flair for making large, beautiful hand thrown ceramics.

His work is in high demand and he is renowned for his architecturally specific items as well as the amazing scale of his works. He is also a part-time lecturer at the National Art School and his workshops are in great demand, particularly those with a focus on innovative wheel-throwing techniques developed by him over three decades.

CSG February 25th 2018 Workshop

Come and join us for the opening of our new premises at 16a Balcombe Heights Estate and watch Master Potter, Cameron Williams, demonstrate his wonderful throwing skills. Cameron will be making a large scale piece to commemorate the opening of the new premises, perhaps a big planter or a large urn. He will also be making some big textured blossom jars of varying sizes.

Our amazing Permanent Collection will now be on permanent display and the extensive updated library will also be available to members.

16a Balcombe Heights Estate is now our home and we can utilise it 7 days a week. It will be available for residencies and day workshops.

This is an exciting next step in history for the Ceramic Study Group, so we do hope you can join us in the celebration of the official opening of our new premises.
